Dear Potential Partner,

Let me start by saying how delighted we are that you have an interest in supporting the students of the North East Agriscience Magnet Program (AMP), which is home of the James Madison FFA and one of the largest and most active agriculture educational programs in Texas and the nation.

The AMP has over 600 students studying agriculture and they travel from all over NEISD to do so. The program offers 29 courses in agriculture education ranging from aquaculture to veterinarian technology. It is housed on 20 acres of the James Madison High School campus where the students are challenged in the rigors of sound curriculum, state-of-the-art learning and outstanding FFA competition.

Any support that you can provide us, along with the proceeds from numerous fundraising events during the school year, are used to help us meet our booster club goals which are: "to support agriculture science and technology education through the support of the James Madison FFA Chapter and the North East Agriscience Magnet Program."

We support the AMP and James Madison FFA in various ways and the following are just a few examples:

- Award scholarships to students planning to attend technical trade schools, college, university or other higher learning institutions.
- Financially support students that represent the James Madison FFA with participation in local, state and national competitions.
- Give financial assistance to students that establish a Supervised Agriculture Experience project in areas such as agri-science research, engineering and mechanics, service dog fostering and training, livestock exhibition, horticulture/floriculture design, environmental systems, and food processing.
- Provide monetary rewards to students that raise and exhibit livestock at local and county livestock shows.

Please note that we are a "non- profit" organization. Any donations, cash or in-kind, are not only going to help us meet our goals but are tax deductible as well. The James Madison FFA Boosters is recognized as a tax exempt 501(c)(3) organization as a subordinate in good standing of Parent Booster USA, Inc., Group Exemption Number: 5271, EIN# 27-1546608.

Thanks again for your consideration and please don't hesitate to call me at (210) ####-#### if you would like additional information about the Agriscience Magnet Program or the James Madison FFA Booster Club.

Sincerely,

**Nathan Hall**  
President
